Your Voice Matters. Help Shape the Future of the Interurban Trail!

WHAT: West Michigan Trails, the City of Wayland, and Wayland Township invite community members to attend a public open house for the Interurban Trail Route Study. Participants will have the opportunity to review potential trail routes through the City of Wayland and Wayland Township and provide feedback on trailhead locations, amenities such as benches, parking, bike repair stations, restrooms, and signage, as well as local destinations and natural features that should be connected by the trail. Stop by anytime during the open house to enjoy refreshments, view maps, learn about the project, ask questions, and share your ideas.

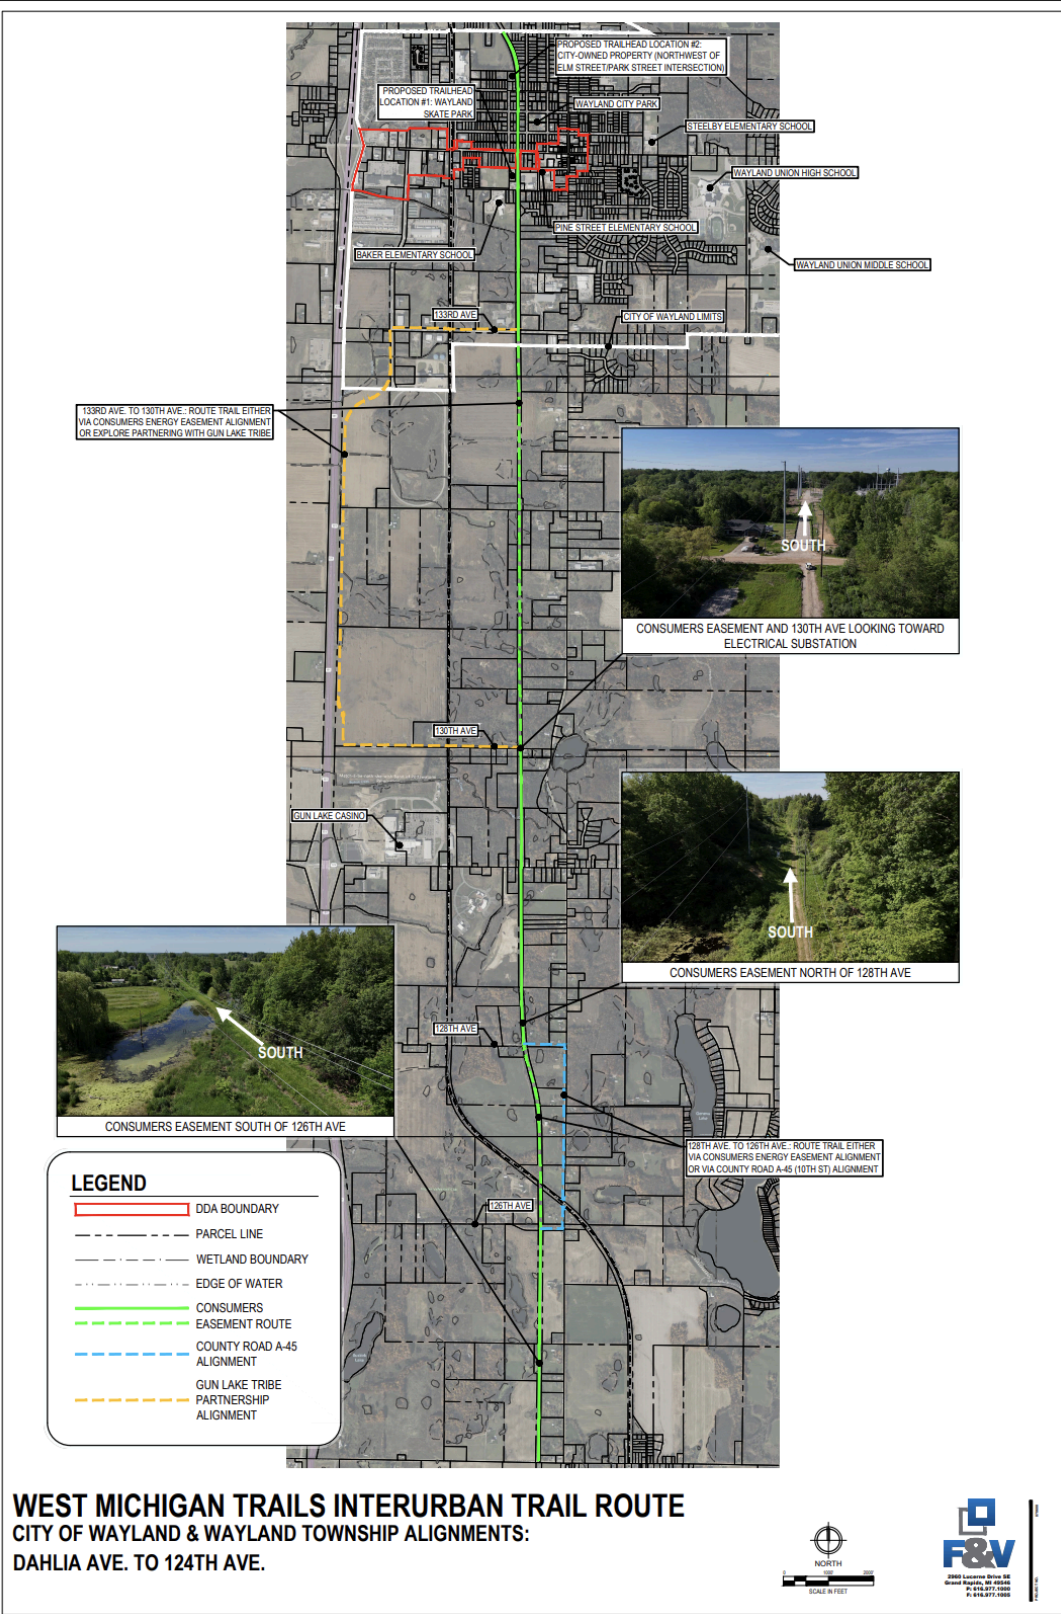

WHO: West Michigan Trails, City of Wayland, and Wayland Township

WHEN: Monday, August 18, 2026, 5:30 PM - 7:30 PM

WHERE: Wayland Township Hall, 1060 129th Ave, Shelbyville, MI 49344

WHY: Whether you walk, bike, run, roll, commute, or simply enjoy spending time outdoors, your input will help shape the Interurban Trail Route Study and guide future trail planning. Community feedback will help identify preferred trail routes, key destinations, and amenities that will create a safe, connected trail for residents and visitors alike. Stop by anytime during the open house to view maps, learn about the project, ask questions, and share your ideas.

HOW: For additional information, please contact Jennifer Antel via email jennifer@wmtrails.org. Can't attend the open house? Community members can still share their feedback by completing the online survey at <https://www.surveymonkey.com/r/J38ST8P>.
